SOFTWARE PACKAGES

The software packages for the new machine generation NOVA are available for the machines ES-R, ES-E and ES-M in 4 levels (Basic, Silver, Gold, Signature) that can be selected for machine orders. A package upgrade is possible at any time. The packages will be handled via a dongle concept. For the ESPERA NOVA Machine ES-B a special designed software package is available. This package cannot be upgraded. For the ES-B machine no software adaptions will be realized.
